No-Mar inventor creates more affordable Scratch-Proof Motorcycle Tire Changer.

St. Louis, MO – Jan 1, 2009.

"No-Mar Motorcycle Tire Changers" has introduced their new brand, "Cycle Hill". A "Value Priced" tire changer made from some of their existing key components. Carrying on their tradition of high quality and value, No-Mar created a product for riders and enthusiasts who needed something more than the disposable 'import' tire changer while being affordable enough for only occasional use.

Made in the same factory as the No-Mar the Cycle Hill tire changer inherits the same high quality as the proven and popular "No-Mar" tire changer. They back this up with their "Lifetime Limited Warranty".

With this kind of 'built in' quality and reputation, not to mention is compact size, the Cycle Hill tire changer is a perfect choice for the home user.

Cycle Hill offers two packages. The Standard package includes the changer, mount/demount bar, lubes, floor mount kit, Xtra hand clamp and replacement tips, for just \$365. The Big Package, for just \$555, includes everything in the Standard Package, plus the Cycle Hill Static Wheel Balancer (with UHMW cones, instead of brass or steel), our medium cone set, weight kit, two Patented SpoonBars, and our amazing YellowThing. All the parts and accessories you need to change tires and balance your wheels.

Supplies and accessories are also available. See www.CycleHillTireChanger.com for more information.

ABOUT Cycle Hill Enterprises – Cycle Hill manufactures high quality 'made in U.S.A.' tire changers and balancers as well as supplies and accessories. www.CycleHillTireChanger.com
